### **BRIEF SUMMARY:**

- EESL and PEPL representatives requested ULB members to provide electricity bills, cost of repair and maintenance, cost of operation and cost of purchase of new pumps/motor/accessories for the last three financial years (i.e. 2014-15, 2015-16 and 2016-17) for each pump month wise.
- ULB Members assured EESL and PEPL teams to provide all the required data as maximum as possible.
- ULB members informed EESL and PEPL representatives that they have 13 water pumps and 6 OHTs in actual and out of 13 pumps, 11 pumps are in running condition and rest 2 pumps are under maintenance since long.
- ULB also informed that almost all the water pumps operate approximately 8 hours per day due to lack of electricity supply in the city.
- EESL and PEPL representatives also requested ULB members for arranging one plumber/fitter during audit who will be responsible to install the pressure gauge in existing tapping points or on new tapping points.
- ULB agreed to provide a plumber for the audit and they deployed Mr. Abid (Plumber, ULB) with the auditing team at the same time.
- EESL, PEPL and ULB teams visited all the pumps for an initial field study and noticed that all the pumps are provided with tapping for chlorination dosing.
- ULB members informed EESL and PEPL that due continuous holidays, no member would be available from ULB team for the audit work so PEPL can start their audit work after 2<sup>nd</sup> of October 2017.
